Massachusetts Institute of Technology 2.017 Principles of Corrosion in Marine Environments References used: Oxtoby, D.W., H.P. Gillis, and N.H. Nachtrieb (1999).

Marine and Offshore Corrosion describes the principles of effective corrosion control treatments in marine environments, with emphasis on economic solutions to corrosion. The book explains chemical or electrochemical reaction of an alloy with its environment leading to corrosion, and mechanical loss of the metal by erosion, abrasion, or wear resulting also in corrosion.

and 7000 series. Despite having high mechanical properties, alloys in the 2000 series with copper and 7000 series with zinc (with or without copper) cannot be used in marine applications without any special protection because of their inadequate corrosion resistance. The 7000 series ...
