Maryland Citizens in Psychiatric Crisis (2007): A public report issued in conjunction with the Center
for Public Representation, detailing the experiences of individuals with a psychiatric diagnosis in
Maryland's emergency departments and making recommendations to improve quality of care and to
expand access to alternative community crisis services.

The availability of crisis services in Maryland varies greatly by jurisdiction, and there is some
divergence between crisis services available for individuals who have a primary psychiatric diagnosis
versus crisis services available for those with emergencies related to substance use disorder.

behavioral health services and supports is a priority and will include expansion of crisis services, and
evidence-based and promising practices. Remaining clinically and fiscally responsive is a top priority
for Maryland's PHS as these goals
