Human skin - Wikipedia

The human skin is the outer covering of the body and is the largest organ of the integumentary system. The skin has up to seven layers of ectodermal tissue and guards the underlying muscles, bones, ligaments and internal organs. Human skin is similar to most of the other mammals' skin, and it is very similar to pig skin. Though nearly all human skin is covered with hair follicles, it can appear ...

Discrimination based on skin color - Wikipedia

Discrimination based on skin color, also known as colorism, or shadeism, is a form of prejudice and/or discrimination in which people who share similar ethnicity traits or perceived race are treated differently based on the social implications that come with the cultural meanings that are attached to skin color.

Color Fastness: The Ultimate Guide - Testex

7/10/2020 · Washing or soaping fastness refers to the degree of the color change of dyed fabric after washing with a washing liquid. Usually, a gray graded sample card is used as the evaluation standard; that is, the color difference between the original sample and the faded sample is used for judgment.
