9/5/2019 · Scientific data recording and reporting systems are of a great interest for endorsing reproducibility and transparency practices among the scientific community. Current research generates large datasets that can no longer be documented using paper lab notebooks (PLNs). In this regard, electronic laboratory notebooks (ELNs) could be a promising solution to replace PLNs and promote ...

11/7/2018 · The Project Life Cycle consists of four main phases through which the Project Manager and his team try to achieve the objectives that the project itself sets.. The four phases that mark the life of the project are: conception / start, planning, execution / implementation and closure.. Each project therefore has a beginning, a central period, a completion and a final phase (successful or not).
