Native advertising, also called sponsored content, is a type of advertising that matches the form and function of the platform upon which it appears. In many cases it functions like an advertorial, and manifests as a video, article or editorial. The word native refers to this coherence of the content with the other media that appear on the platform.

11/8/2021 · The books on this page are all general introductions to the Python language. Most of these books will contain a few chapters on particular applications such as GUI interfaces or Web programming, but won't go into great detail on any one topic; refer to the PythonBooks page for lists of application-specific books. Experienced programmers who prefer a brief and condensed introduction should look ...
