Common gauges are 7-1/2" (Western US) and 7-1/4" (Eastern US & rest of the world), 5", 4-3/4". Smaller live steam gauges do exist, but as the scale gets smaller, pulling power decreases. One of the smallest gauges on which a live steam engine can pull a passenger is the now almost defunct 2 ...

The Ribble Steam Railway is a standard gauge preserved railway in Lancashire, in the United Kingdom. It was opened to the public on 17 September 2005, running along Preston Docks. The railway began by housing much of the collection from the previously closed Southport Railway Museum (Steamport), which was based in the old Lancashire and Yorkshire Railway engine shed at Southport (BR shed code 27C).
