4/1/2013 · In this article we identify the assumptions underpinning the 'why didn't they see it coming?' narrative as it has been expounded in relation to the global financial crisis in the UK and US. Since 2008 commentators have routinely argued that warning signals of an impending financial crisis were ignored by political elites, treasury officials and financial regulators.

We might have seen colleagues accept gifts from potential vendors. Maybe a co-worker leaves work 20 minutes early every day so she can get to her second job. A supervisor may give a co-worker time off from work to do volunteer work or might allow employees to solicit donations and funds in the workplace, whether for the Girl Scouts or a local school function.

5/11/2019 · The American empire is in decline—and we're not ready for what comes next. Nathan Schneider November 05, 2019. Photo by NeONBRAND on Unsplash. The condition of ...

31/5/2016 · The recent Paris accord on global climate change is a key step in acknowledging biophysical limits to human actions, but the challenge of respecting the biosphere's ecological limits remains underrated. We analyze how respecting these limits squarely conflicts with an economy centered on growth and technology to mitigate environmental stress. The need to mitigate human impacts on ...

It is difficult to isolate one or two of these forces or problems as being chiefly responsible for the demise of the Republic. To the everyday observer, Adolf Hitler and Nazism appear the main architects of the downfall of Weimar democracy – but this required a collapse in the economic order, allowing Hitler and the National Socialists (NSDAP) to emerge from the margins of German politics ...
