31/5/1997 · One option is to add a second OFF-1-BOTH-2 battery switch to your electrical system. All of your house loads run through one of the battery switches, and all of the engine-related loads run through the other battery switch. By wiring the switches as shown in Figure 2, you can cross-connect the engine starting loads to the house battery in an ...

By wiring a 2-way switch, The circuit below shows the basic concept of electricity flow to the load. Let's assume the load you are controlling is a light. The electricity flows from the hot wire (black) through the 2-way switch (shown in off position) and then to the light and returns through the neutral wire (white). This is a completed circuit.

Single Engine – 1 starting, and 1 house battery; Twin Engine – 2 starting, and 1 house battery; Every non-engine wire (EVERY ONE) should be circuit protected with a fuse or circuit breaker. Batteries have positive and negative. For current to flow (which does the work) a complete circuit must be made from positive back to the negative.

Figure 2 - Schematic wiring diagram for multiple motion detectors with 120VAC lighting Figure 3 - Drawing of actual wire connections for installing multiple motion sensors You can use the same basic multiple motion sensor circuit to turn on low voltage lights by switching the input power to the low voltage transformer rather than the individual lights, as shown in Figure 4.

10/3/2015 · LS SWAPS: Wiring Harness and Wiring Guide. March 10, 2015 by LS Engine DiY. The wiring aspect of any LS swap is undoubtedly the most difficult. Most builders are familiar with fabrication techniques, trouble shooting, and parts swapping to make things work, but electronics rise to a much higher level of complexity.

Just like any loop-in loop-out radial circuit, the switch cable from the ceiling rose contains two wires, a permanent live and a switched live. This is cable C below, one wire connects to L1 and the other to L2 on the top switch. Cable D (Fig 2) is a three core and earth, this is the '3 wire control' that links the two light switches together.
