This paper examines China's policies on legal awareness in mid-2021. It brings into focus the social dynamics of the continuous institutionalization of social norms that are shaping the legal culture in China. It is argued that the discovery of legal culture outweighed the sociocultural imaginations of orders by the institutionalization of social norms.

A Turing machine is a mathematical model of computation that defines an abstract machine that manipulates symbols on a strip of tape according to a table of rules. Despite the model's simplicity, given any computer algorithm, a Turing machine capable of simulating that algorithm's logic can be constructed.. The machine operates on an infinite memory tape divided into discrete "cells".
