Engineering Manager. Job Description. Required outputs:. Functional. Maintenance planning and execution for the plant and machinery. Execution of strategic engineering projects and change management. Develop and track maintenance budget. People management of external. Confidential Gauteng 1 minute ago.

Electrical engineering is an engineering discipline concerned with the study, design and application of equipment, devices and systems which use electricity, electronics, and electromagnetism. It emerged as an identifiable occupation in the latter half of the 19th century after commercialization of the electric telegraph, the telephone, and electrical power generation, distribution and use.
