Reading New Health Guidelines

UPDATE GUIDANCE

“Clinical practice guidelines are systematically developed statements to

Reading New Health Guidelines

assist practitioner and patient decisions about appropriate health care for specific clinical circumstances.”(Institute of Medicine, 1990) Issued by third-party

Reading New Health Guidelines

organizations, and not NCCIH, these guidelines define the role of specific diagnostic and treatment modalities in the

Reading New Health Guidelines

diagnosis and management of patients.

28/9/2020 · 28 September 2020 - New
guidelines from WHO recommend a set of

Reading New Health Guidelines

psychosocial interventions to promote mental health and prevent mental health conditions among adolescents, aged 10-19 years. The recommendations are based on

Reading New Health Guidelines

the results of intervention studies – both universal, delivered to all adolescents; and for selected individuals perceived to be at
