Generating PDF and Word documents from an APEX application is a request that we get all the time. There are many great third party tools to help you do this but in this blog post I'm going to focus on PL/PDF, which is the tool that I used most recently for customer work. PL/PDF is a set of PL/SQL packages that you can install into your database.

easier. Make a template in Office, HTML or Markdown, choose data from your database and merge them into one. You can easily print PDFs, Office documents, HTML or Markdown in no time.

17/5/2019 · Some Oracle APEX customers prefer to view embedded PDF documents directly within a page in their application rather than having to download. My current case study allows users to upload a .pdf document, save directly to a file location (rather than a DB Column) and view same embedded on the current page as shown above.
