Notes documentation.

Introduction to the Oracle Database

In addition to the robust web services

support in Oracle Application Server

10 g, Oracle database 10 g can

publish and consume web services.

Download Oracle Application Server 10g Documentation ebooks

DML and DDL operations can be exposed as web services, and functions within the database can make a web service appear as a SQL row source, enabling use of powerful SQL tools to analyze web service data in conjunction with relational and non-relational data.
