autocratic in others. 10 As can be seen in Figure 2-2, both leadership styles are used to carry out the activities of the organization.

Swarup (2013) argued that autocratic leadership style is a classified leadership style. It's a style of leadership where a manager is the most powerful entity and it is the primary decision maker (Gordon, 2013). This style of leadership is based on the traditional premise that leaders are good managers who direct and control their people.

styles and the ways that various behaviors relate to effective leadership. A cursory glance at successful leaders suggests that, even though certain characteristics may
