Peer-Review. Once a manuscript passes the initial checks, it will be assigned to at least two independent experts for peer-review. A single-blind review is applied, where authors' identities are known to reviewers. Peer review comments are confidential and will only be disclosed with the express agreement of the reviewer.

A performance review is a documented evaluation of a person's performance. This is a systematic process of evaluating an individual's performance and productivity with regards to the organizational objectives and criteria. Performance review, also known as performance appraisal, has been part of the organization's career

development.

BMC Biology operates a single-blind peer-review system, where the reviewers are aware of the names and affiliations of the authors, but the reviewer reports provided to authors are anonymous. The benefit of single-blind peer-review is that it is the traditional model of peer review that many reviewers are comfortable with, and it facilitates a dispassionate critique of a ...

For more information on what to expect during the peer review process, please refer to BMJ Author Hub – after submitting. BMJ requests that all reviewers adhere to a set of basic principles and standards during the peer-review process in research
