The EZ36D engine had a die-cast aluminium cylinder block with 92.0 mm

Reading Praxis 5034 Study Guide

bores and a 91.0 mm stroke for a capacity of 3630 cc. For the EZ36D, sintered iron pieces within cylinder block controlled thermal expansion of journal clearances during warm-up; according to Subaru, the iron pieces also relieved shocks to the crankshaft journals and reduced overall vibrations.

Sometimes when all resources have been tapped out, you are in an emergency situation. As a college student, paying your bills may not be possible without emergency financial aid, which come in the form of loans and other types of funding that does not have to be repaid.
