Research Ethics - UNC Research Engineering Ethics is a part of all professional careers, but play an extremely important role in engineering. In this lab, we will discuss the importance of engineering ethics using two case studies.

The Iron Ring is a ring worn by many Canadian-trained engineers, as a symbol and reminder of the obligations and ethics associated with their profession. The ring is presented to engineering graduates in a private ceremony known as the Ritual of the Calling of an Engineer. The concept of the ritual and its Iron Rings originated from H. E. T. Haultain in 1922, with assistance from Rudyard ...
