The Programming Logic and Design CourseMate includes: Video Lessons. Designed and narrated by the author, videos in each chapter explain and enrich important concepts. Two Truths & A Lie, Debugging Exercises, and Performing Maintenance. Complete popular exercises from the text online.

15-819K: Logic Programming Lecture 1 Logic Programming Frank Pfenning August 29, 2006 In this ?rst lecture we give a brief introduction to logic programming. We also discuss administrative details of the course, although these are not included here, but can be found on the course web page.1 1.1 Computation vs. Deduction Logic programming is a ...

Answer 1.2 Logical data independence means that users are shielded from changes in the logical structure of the data, i.e., changes in the choice of relations to be stored. For example, if a relation Students(sid, sname, gpa) is replaced by Studentnames(sid, sname) and Studentgpas(sid, gpa) for some reason, application programs that operate

Answer 1.3 Logical data independence means that users are shielded from changes in the logical structure of the data, while physical data independence insulates users from changes in the physical storage of the data. We saw an example of logical data independence in the answer to Exercise 1.2. Consider the Students relation from that
