Communication and Optimal Resolution (CANDOR) is a process that health care institutions and practitioners can use to respond in a timely, thorough, and just way when unexpected events cause patient harm. This AHRQ toolkit, based on the CANDOR process, is intended to assist hospitals in implementing communication and optimal resolution programs.

Search the world's information, including webpages, images, videos and more. Google has many special features to help you find exactly what you're looking for.

apply to any analysis used to support Government decisions to initiate, renew, or expand programs or projects which would result in a series of measurable benefits or costs extending for three or ...
