22/3/2016 · This might be the underlying question of Carl E. Walter and Fraser J.T. Howie's Red Capitalism: The Fragile Financial Foundation of China's Extraordinary Rise. The main idea of this book is that China's current economic and financial status is a creation of the Communist Party which rules the country and it's not based on a solid growth.

In Red Capitalism, Carl Walter and Fraser Howie detail how the Chinese government reformed and modeled its financial system in the 30 years since it began its policy of engagement with the west. Instead of a stable series of policies producing steady growth, China's financial sector has boomed and gone bust with regularity in each decade.
