4/3/2009 · I'm having an issue with a Samsung HLR5067w 50" DLP. When I turn it on I don't get the startup chime anymore and the LAMP LED flashes for about 1 minute with no picture. The LAMP light stops flashing after about two minutes and then the red "Stand By/Temp" LED stays solid (as if the unit was shut off). Again no chime if I try to shut it off.

9/3/2021 · Problems that trigger a check engine light are sometimes basic and quick to fix. Don't ignore it, either, and get it checked out as quickly as possible. Here are the 10 most common problems that ...

Run like that for any length of time, and the engine will be shrapnel before you can say `big ends'. But it can be even worse, because the first instinct of many a would-be mechanic, on seeing the red oil pressure light glowing, is to give the engine a rev to make the light go out. Bad idea. Very bad.
