Sexualized Violence Against Women and Children: A Psychology and Law Perspective Edited by B. J. Cling, PhD, JD. New York: The Guilford Press, 2004. 305 pp. \$38.00 (hardcover).

As noted in Chapter 1, this edited volume seeks to unite legal and psychological perspectives on sexualized violence for the purposes of increasing the contextual understanding of both lawyers and forensic psychologists. The editor points out that in recent decades there has been an increased awareness of the psychological harm inflicted on women and children by the experience of sexual violence.

Sexualized Violence against Women and Children: a Psychology and Law Perspective contains eleven chapters, each chapter combining much of what is currently known about the impact of sexualized violence, and recent changes to US law. The book is divided into three parts, i) sexualized violence against women, ii) sexualized

Violence against women Introduction Violence against women is defined as any act of “gender-based violence that results in or is likely to result in physical, sexual or psychological harm or suffering to women, including threats of acts such as coercion or arbitrary deprivation of liberty, whether occurring in public or in private

Violence against women is everywhere. VIOLENCE AGAINST WOMEN 1 in 3 women have experienced physical/sexual violence at some point in their lives. 2 in 3 victims of intimate partner/family related homicide are women. less than 40% of women who experienced violence sought help of any sort. Of those, less than 10% sought help from the police.

This violence included impregnating Muslim women, forcing them to give birth to "Serbian children" after the end of their captivity. Society's increased interest in the existence and consequences of sexualized violence as part of genocidal practices, as well as the new focuses of research in this area have served to change the historical appraisal and current discourse on memory.

GENDER-BASED VIOLENCE AGAINST WOMEN Gender-based violence against women has been defined as “any act that results in, or is likely to result in physical, sexual, or psychological harm or suffering to women, including threats of such acts, coercion or arbitrary deprivation of liberty, whether occurring in public or private life” (United Nations, 1995, Platform for Action D.112).

Violence and sexual violence against girls and women continue to occur with great frequency. For example, United Nations data (2008) indicates that 70% of women experience
