**Psychology - Wikipedia**

*Psychology is the science of mind and behavior. Psychology includes the study of conscious and unconscious phenomena, as well as feelings and thought. It is an academic discipline of immense scope. Psychologists also seek an understanding of the emergent properties of brains, linking the discipline to neuroscience. As a social science, psychologists aim to understand the behavior of individuals ...*

**Examples Illustrating Social Psychological Concepts**

*Ingroup bias - It used to be that voters would say "throw those bums in Congress out, but keep mine." Now, even that is changing. [added 6/19/10] Ingroup bias - When I was in Grammar School, it was the biggest deal to be part of the popular group; that's all I ever wanted. Finally, after years of trying I made it in this distinctive group. This is the perfect example for the Ingroup/Outgroup.*

**Attribution (psychology) - Wikipedia**

*Humans are motivated to assign causes to their actions and behaviors. Social psychology states that attribution is the process by which individuals explain the causes of behavior and events as being either external or internal. Models to explain this process are called attribution theory. Psychological research into attribution began with the work of Fritz Heider in the early 20th century, and ...*
