housing, a good job, a healthy place to live.
A future where people and the planet thrive.

The project schedule may change as project progress; this change can be attributed to change in scope, deliverables, quality and risk aspects of the project. It is the people who make the project work hence it is critical to plan for project team.

In recent years, massive IT innovations led to economic growth and increased competition among companies in the industry. And because people expect a new software design and development each year, software experts and engineers must undergo thorough professional project planning to survive. With a sound project
