Radial Engineering Ltd. is a manufacturer of professional audio products based in Vancouver, British Columbia, Canada. A longstanding reputation for bringing reliable and tough-as-nails problem solvers to the market means you will see Radial products on stages and in studios world-wide.

3/1/2020 · In the PS Audio room, using a cartridge that would normally load at 60 or 100 ohms, we found 200 ohms sounded best, and that's what I found at home as well. I'd say unless you like really rich and ripe, you're better off pairing the Stellar with a neutral or even a lean, not-rich– sounding cartridge.

Musical Concepts / Musical Design Home. PA-7 V2... announced. Once again there's no fear for PA-7 owners since they can convert to the V2 with a small kit of parts soon. (06-17-21) Some prices down, others up... But call and ask for May 2021 pricing until July 1, 2021. "Up" mainly for preamp and

power supply mods (06-01-21)

Yes, or they wouldn't be there. Baffles primarily help manage phase cancellation. Phase is the difference in time and amplitude between two sources, in this case the front and rear of a speaker cone. When sound waves from the rear meet those from ...
