tech writing sunset, know this: most of the manuals and guides out there are written by people who have no firsthand knowledge of the subject matter. We think that's a problem. It takes more than just writing skill to write a good manual: it also takes understanding. There are two laws of tech writing: 1. Know thy product and process 2.

For books containing primarily tube data, like Sylvania, GE, and RCA tube manuals, see the tube data page. Arranged by subject category, then alphabetically by title. Note that there is much overlap in the subjects (e.g., many "radio" books have a thorough treatment of vacuum tubes, and most general textbooks cover radio and vacuum tubes in some detail).
