A postage meter or franking machine is a mechanical device used to create and apply physical evidence of postage (or franking) to mailed items. Postage meters are regulated by a country's postal authority. A postage meter imprints an amount of postage, functioning as a postage stamp, a cancellation and a dated postmark all in one. The meter stamp serves as proof of ...

The Putnam Rotary Interact Club worked hard at the recent Relay For Life at the Killingly Intermediate School. The students helped set up tents, handed out fliers and gave directions to incoming cars. They also lit the luminaries at the end of the evening. The Interact Team raised \$1,285 for the American Cancer Society.

dance with ASTM (American Society for Testing and Materials) B-117 Standard. The Carrier Electronic Catalog (E-CAT) can be used to determine whether corrosion protection is recommended for particular applications in coastal/ marine environments. Following the input of the requested data, the E-CAT program output will advise the appro-

iii Preface to Fourth Edition Control valves are an increasingly vital component of modern manufacturing around the world. Properly selected and maintained control valves increase efficiency, safe-

to recommend the model RTHD helical-rotary liquid chiller. This chiller provides application versatility, ease of installation, control precision, reliability, energy efficiency, and effectiveness. The RTHD chiller is designed to deliver proven performance, plus all the benefits of

Thus, half the American made bottles from the late 1910s would have suction scars. Apparently as time passed the Owens engineers discovered a combination of technique, glass formula, and glass temperature that eliminated the feathering on the Owens bottles (Miller & Morin 2004).
