Stalin ordered his execution, but here Peter Palchinsky has the last word. His ghost leads readers through the miasma of Soviet technology and industry, pointing out the mistakes he condemned in his time, the corruption and collapse he predicted, the ultimate price paid for silencing those who were not afraid to speak out. The story of this visionary engineer's life and work, as Graham tells ...

Espionage and the Manhattan Project, 1940-1945. Security was a way of life for the Manhattan Project. The goal was to keep the entire atomic bomb program secret from Germany and Japan. In this, Manhattan Project security officials succeeded. They also sought, however, to keep word of the

atomic bomb from reaching the Soviet Union.

1/1/2013 · Peer-review under responsibility of Asia-Pacific Research Center, Hanyang University. Download : Download full-size image 1.
