musk a potent miscarriage-inducing agent .

12/10/2016 · And while synthetic fragrances have raised a few eyebrows when it comes to their health and environmental consequences, natural equivalents are not always much better. Perfumes killed innocent animals. Musk, which is used both as a fragrance and stabilizing agent in perfumes, can also be produced naturally. For example, the civet, a small, mammal native to tropical Asia and Africa, produces such a musk through its perineal glands. The musk ...
