On the block was only the farm complex: the headquarters of SFi, some ten buildings occupying seven hectares of the farm's total 141 ha.¹ According to Law 18, any land on which buildings had been constructed during the socialist period was state property and its owners would receive land elsewhere—that is, the...

22/5/2021 · Verdery tells this story about transforming socialist property forms in a global context, showing the fruitfulness of conceptualizing property as a political symbol, as a complex of social relations among people and things, and as a process of assigning value. This book is a window on rural life after socialism but it also provides a framework for
