These solutions are meant to facilitate deeper understanding of the book, Topics in Algebra, second edition, written by I.N. Herstein. We have tried to stick with the notations developed in the book as far as possible. But some notations are extremely ambiguous, so to avoid confusion, we resorted to alternate commonly used notations.

Topics in Algebra solution Sung Jong Lee, lovekrand.github.io November 6, 2020 Problems in Section 2.12. 1. Adapt the second proof given of Sylow's theorem to prove directly that if  $p$  is a prime and  $p \mid |G|$ , then  $G$  has a subgroup of order  $p$ . Proof. If the order of group is ...

These solutions are meant to facilitate the deeper understanding of the book, Topics in Algebra, 2nd edition. We have tried to stick with the notations developed in the book as far as possible. But some notations are extremely ambiguous, so to avoid confusion, we resorted to ...

Herstein's Topics in Algebra is one of the well known abstract algebra text. It is super-clear in its writing style with its theorems introduced with enthusiastic motivations. Not too wordy, but not too compact that it misses important details. Although it is not an easy read, but any undergraduates drilling in math (or even beginning-graduates) will definitely benefit himself/herself by ...

Solution: We resort to induction to prove that the result holds for positive integers. For  $n = 1$ , we have  $(a \cdot b)^1 = a \cdot b = a^1 \cdot b^1$ . So the result is valid for the base case. Suppose result holds for  $n = k - 1$ , i.e.  $(a \cdot b)^{k-1} = a^{k-1} \cdot b^{k-1}$ . We need to show result also holds good for  $n = k$ .

These solutions are meant to facilitate deeper understanding of the book, Topics in Algebra, second edition, written by I.N. Herstein. We have tried to stick with the notations developed in the book as far as possible. But some notations are extremely ambiguous, so to avoid confusion, we resorted to alternate commonly used notations.
