English toyota ...

In 1966, Toyota introduced a new compact model called the Corolla, which had a 1.1 liter engine and rear-wheel drive transmission. The profit from sales of this model allowed Toyota to solve one of its main problems - the development of efficient and inexpensive power units, thanks to the purchase of a controlling stake in another Japanese brand Daihatsu .

The EZ30D engine had two timing chains – the left timing chain had 148 links and the right timing chain had 134 links. The timing chains were sprayed with oil from a jet located on the oil pump relief valve housing and did not require maintenance since oil pressure and spring tension maintained chain tension.
