Oracle Certified Master. The Oracle Certified Master credential is the pinnacle of Oracle Certifications and demonstrates the ability to perform hands on tasks that require advanced problem solving skills. Reaching this level of certification usually requires multiple certifications and training along the way.

Oracle’s new edition of Enterprise Manager includes features such as Dynamic Workbooks, Smart Event Compression, and Automatic Workload Analysis that automate many previously manual tasks. These features can significantly reduce IT operational cost and complexity by enabling consistent automation practices across a mix of IT deployment architectures.

A course manual containing key concepts on each topic covered and hands-on activities to reinforce the skills and knowledge attained; A digital student resources folder containing Tableau workbooks and data sources to support the hands-on activities
