The beginning of wisdom in understanding China's view of the world is to understand China's view of the future of its own country—its politics, its economics, its society. Xi Jinping lies at the apex of the Chinese political system. But his influence now permeates every level. Five years ago, I wrote that Xi would be China's most powerful

institution, the Asia Society, which has been engaging China since the earliest days of the People's Republic in 1956. Understanding China is a lifelong journey. For those of you who would become the

next generation of American military leaders, it must be your lifelong journey as well.

Understanding China's Political System Congressional Research Service Summary This report is designed to provide Congress with a perspective on the contemporary political system of China, the only Communist Party-led state in the G-20 grouping of major economies.

inequality in total isolation from other aspects in Chinese society. Unlike in experimental sciences, where the aim of research is often to isolate confounding and contextual effects, we must try to understand China's inequality in perspective — that is, within the context of ...
