Wastewater quality indicators - Wikipedia

Wastewater quality indicators are laboratory test methodologies to assess suitability of wastewater for disposal, treatment or reuse. Tests selected vary with the intended use or discharge location. Tests measure physical, chemical, and biological characteristics of the wastewater.

Sewage sludge treatment - Wikipedia

"Biosolids" is a term often used in wastewater engineering publications and public relations efforts by local water authorities when they want to put the focus on reuse of sewage sludge, after the sludge has undergone suitable treatment processes. In fact, biosolids are defined as organic wastewater solids that can be reused after stabilization processes such as anaerobic digestion and composting.
